

Second MISST Project Team Meeting  
Friday, March 24, 2006  
Boulder, CO

Proposed Agenda

The agenda is organized around the MISST projects five key areas. We would like this meeting to be an open exchange of ideas. Like the first meeting in April 2004, time will be scheduled to allow for ample discussion. As this project moves towards producing analyses for the impact studies, it is important to ensure that all our efforts are tested, refined, and \*implemented\*.

- 8:30:-8:45     **Coffee / Food**
- 8:45 – 9:00    **Welcome and discussion of agenda**
- 9:00           **Data Provision Reports**  
Data Providers please be prepared to talk about data availability? (Doug May/Bruce McKenzie, Chelle Gentemann, Eric Bayler, Bob Evans/Peter Minnett/Bryan Franz)  
Data users - Are there any problems using error estimates, problems using data, suggestions.
- 10:00          **SESS Reports**  
Current implementations: for IR and MW SSTs. AVHRR, TMI, AMSR-E, MODIS, GOES. Please be prepared to discuss current methodology, (look-up tables / code available at [www.misst.org](http://www.misst.org)?). Identify high-priority issues to resolve. Identify pathways for new SSES or updates. (Sandra Castro, Gary Wick, Chelle Gentemann, Andy Harris, Evans, Minnett,Cummings).
- 11:00          **Diurnal Warming / Skin Layer**  
Status of diurnal model development, testing, sensitivity studies -Chelle Gentemann, Gary Wick, Sandra Castro, Brian Ward.
- 12:00-1:00    **Lunch Break**  
Skin layer discussion - exactly how are we going to do this? Discussion lead by Gary.
- 2:00           **Analyses Reports**  
Current status of analyses, problems, approaches, results, availability – (Jim Cummings, Chelle Gentemann, Eric Bayler)
- 3:00           **Impact Studies**  
Planned impact studies. Discussion of what needs to be provided. Common Format ?
- 4:00           **Define FY03 Project Schedule and Milestones**
- 4:30           **Closing Discussion**
